

Humans Are Underrated: What High Achievers Know That Brilliant Machines Never Will (Hardback)

Filesize: 1.04 MB

Reviews

Comprehensive guide! Its this type of very good read through. It is actually writter in simple words and phrases rather than difficult to understand. It is extremely difficult to leave it before concluding, once you begin to read the book.

PORTFOLIO, United States, 2015. Hardback. Book Condition: New. 232 x 167 mm. Language: English . Brand New Book. As technology races ahead, what will people do better than computers? What hope will there be for us when computers can drive cars better than humans, predict Supreme Court decisions better than legal experts, identify faces, scurry helpfully around offices and factories, even perform some surgeries, all faster, more reliably, and less expensively than people? It's easy to imagine a nightmare scenario in which computers simply take over most of the tasks that people now get paid to do. While we'll still need high-level decision makers and computer developers, those tasks won't keep most working-age people employed or allow their living standard to rise. The unavoidable question will millions of people lose out, unable to best the machine? is increasingly dominating business, education, economics, and policy. The bestselling author of *Talent Is Overrated* explains how the skills the economy values are changing in historic ways. The abilities that will prove most essential to our success are no longer the technical, classroom-taught left-brain skills that economic advances have demanded from workers in the past. Instead, our greatest advantage lies in what we humans are most powerfully driven to do for and with one another, arising from our deepest, most essentially human abilities: empathy, creativity, social sensitivity, storytelling, humor, building relationships, and expressing ourselves with greater power than logic can ever achieve. This is how we create durable value that is not easily replicated by technology because we're hardwired to want it from humans. These high-value skills create tremendous competitive advantage: more devoted customers, stronger cultures, breakthrough ideas, and more effective teams. And while many of us regard these abilities as innate traits, he's a real people person, she...
