Neuware - This volume consists of the refereed proceedings of the Kyoto Conference on Computational Geometry and Graph Theory (KyotoCGGT2007), held at Kyoto University in Kyoto, Japan, 11-15 June 2007, to honor Jin Akiyama and Val Chvátal on their 60th birthdays. More than 200 participants from 20 countries attended the conference. Akiyama and Chvátal have been good friends since they met in Tokyo in 1979. Akiyama started the conference series Japan Conference on Discrete and Computational Geometry (JCDCG) in 1997, which has been held annually since that time. In 2001, the conference venue began to alternate between Tokyo and selected Asian cities to attract and encourage Asian graph theorists and geometers. Chvátal, on the other hand, is world-renowned for his contributions to discrete mathematics. Since it was reorganized in 1997, the annual JCDCG conference has attracted a growing international participation.
